

FALL AND WINTER JOBS MADE EASIER!

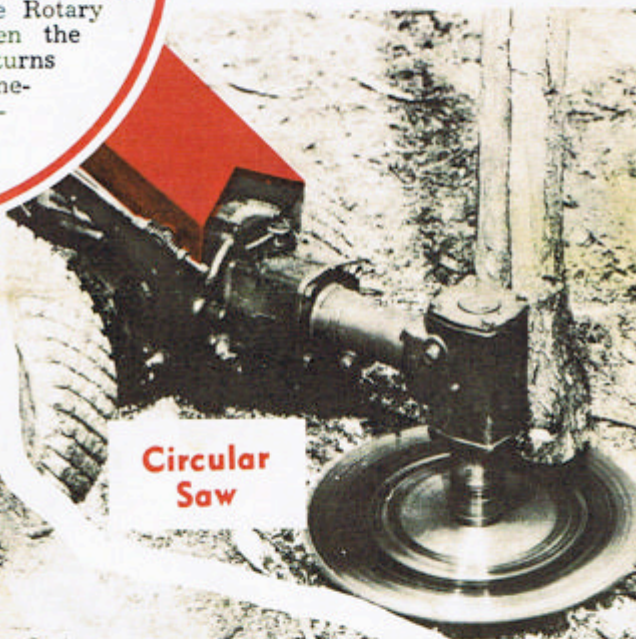

LEAF MULCHER

Watch the leaves vanish when you put your Leaf Mulcher on the Rotary Knife Mower! Gets even the packed leaves . . . returns them to the soil as a finely shredded mulch—valuable humus for your land!

Rotary Mower

Circular Saw

Chain Saw

Combination--Leaf Mulcher--Rotary Knife Mower Chain Saw--Circular Saw

This combination tool handles many of your fall and winter jobs. With one Gravely Tractor and only one attachment Drive Unit, you can use any of these four tools interchangeably.

Rotary Knife Mower, with two heavy-duty blades traveling at tremendous speed, makes short work of lawn or weeds. Easily adjusted for height, file sharpened. The Rotary Knife Mower is a versatile mowing tool that has the added advantage of eliminating raking. You mulch the grass or weeds, return them to the soil as finely shredded humus.

Leaf Mulcher attaches to the Rotary Knife Mower,

gets rid of the leaves in a hurry. No raking, no dangerous fires . . . the leaves just disappear.

Chain Saw cuts timber, firewood: notches, fells, trims and cuts the wood up while you are in a comfortable, standing position. Cuts the timber off even with the ground for easy mowing. Simple clamps set the saw at any angle, any position. Twenty-six-inch blade furnished, longer blades available.

Circular Saw is the perfect tool for clearing land. 18" Blade cuts the brush and small trees off at ground level, allowing you to mow easily and quickly over the stumps.
